

**Portfolio/ Artistic Growth Rubric**

**Name:** \_\_\_\_\_

You are graded on the following:

**Class Code:** \_\_\_\_\_

<b>Area</b>	<b>1 Needs Improvement</b>	<b>2 Emerging</b>	<b>3 Proficient</b>	<b>4 Mastery</b>	<b>Notes</b>
<b>Problem Solving</b>	I do not recognize problems in my work.	I see problems but don't really want to put a lot of effort into fixing them.	I try basic solutions to problems with or without teacher guidance.	I identify problems and work creatively EOA's or POD's to enhance my work.	
<b>Exploration &amp; Expressive Originality</b>	I can't think of anything and therefore may copy ideas or trace images or waste time in class.	I will come up with an idea and put minimal effort into my work and may not pay attention to requirements.	I can come up with ideas on my own that are unique to me and will put the required amount of expression in my work.	I explore new possibilities with ideas, and use the EOA's and/or POD's to make my art stand out.	
<b>Media Manipulation &amp; Technique Application</b>	I just basically draw and color in quickly as I can to get it over and done.	I have ideas but feel limited with my drawing or finishing skills. I basically color my work but it may be a bit uneven, patchy, or inconsistent.	I show an age level proficiency in control of materials. I am consistent with how I work. I try to have a clean art piece in the end.	I push the media in a variety of ways to add depth to my work. I don't limit myself to a coloring book technique.	
<b>Process Participation</b>	I really have no interest in trying. I focus on other things or sleep.	I try half of the time and otherwise off task.	I'm about 3/4ths invested, sometimes I may get distracted.	I am completely invested in all activities.	
<b>Growth &amp; Improvement</b>	I don't care to learn about art or try any art activity. I have not shown any improvement in skills, problem solving, or use of media.	I will try a little but will always take the easy and fast way out. Often drawing rudimentary corner suns, stick figures, and lollipop tree styles. My work does not reflect age level growth.	I attempt to apply new ideas and techniques the best way that I can. I show a willingness to improve my work. My art shows that I have learned new techniques and processes.	I am striving to make my work better every day. I try all the activities provided and use ideas presented to help me make the best art possible. There is evidence that my skills are always improving.	
<b>Composition &amp; Design</b>	I suffer from "white space syndrome" where I leave areas untouched because I don't feel like dealing with them.	I try to organize the space of my work but it may be haphazard and random.	I intentionally plan all areas of my work and thoughtfully work the entire canvas/paper.	I look for ways to have a dynamic and creative layout. I can show an understanding of organizing the canvas/paper for maximum effect.	
<b>Care &amp; Responsibility</b>	I often misuse, abuse, and neglect supplies. I leave messes for others to deal with. My work is damaged with marks, stains, wrinkles, and/or tears.	I mostly care for materials as expected but sometimes I forget. I have a few careless marks, smudges, wrinkles, or small tears.	I rarely fail at cleaning-up handling materials appropriately. My work has no damage.	I consistently return items to their proper storage place in good condition and use materials as expected. My work shows extra care to keep clean and pristine.	

Artwork \_\_\_\_\_

Art Rubric	Needs Improvement	Emerging	Proficient	Mastery
Problem Solving & Process Participation	12	16	18	20
Exploration, Expression & Growth	12	16	18	20
Media Manipulation, Technique & Care	10	12	14	15
Composition, Design & Originality	10	12	14	15
Completion	Work is incomplete. 0		All work is complete. 10	
Project Requirements	All requirements met. 10	15	17	20
<b>Total Score</b>				100

**Notes:**

- Outline
- Fix Color Application
- Finish Work
- Random
- Sloppy
- Design already in use
- Missing requirements
- Add more detail

**Other:**

Notes/Comments:
